## BEHIND THE LENS

# Ilan Magen

I'm a professional **travel and aerial photographer**. For over five years I've been photographing landscapes, coastlines and destinations across the world — always chasing the light that makes a place feel alive.

I bring that same eye to hospitality: warm, editorial images that tell the story of a property and make travellers want to book it. Not stiff catalogue shots — the feeling of actually being there.

Fully equipped for stills and licensed **drone / aerial** work, with professional editing included on every frame.

## THE PACKAGE

# What I create for your property

A complete, ready-to-publish visual set you can use everywhere — your website, Booking.com, Airbnb, Instagram and print.

## Rooms & Interiors

Bright, true-to-life photographs of rooms, suites, lobbies and common spaces — styled to feel spacious, clean and inviting.

## Lifestyle & Detail

The pool at golden hour, breakfast on the terrace, the small design details — the atmosphere that turns a listing into a destination.

## Aerial & Drone

Sweeping shots that reveal your location — the beachfront, the pool from above, the setting no ground camera can capture.

## Professional Editing

Every image hand-edited for colour, light and mood — a consistent, polished look across your whole gallery.

#### THE COLLABORATION

## A full photo package *in exchange for a stay*

I'm building my hospitality portfolio alongside my travels, so I offer this as a simple, fair trade: a complimentary stay at your property (a night or a few), and in return you receive a complete set of professional images — no fee. A win for both of us: you get visuals that lift your bookings, I get to photograph a beautiful place.
